

CERVICAL CANCER

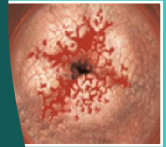

Do You Know....??

Normal Cervix

27% of the world's cervical cancer deaths occur in India

Infected Cervix

Kills the most number of women among all women cancers in India

Every seven minutes, one Indian woman dies of cervical cancer

Cervical cancer is:

- ✓ VIRUS INDUCED
- ✓ SEXUALLY TRANSMITTED
- ✓ PREVENTABLE

We, at MAHATI TRUST®, aim to create awareness about this cancer and address its prevalence in rural and urban Karnataka
