

Join The Fight **PREVENT THE CANCER**

Do you know?

Every 7 minutes one woman dies of cervical cancer in India!!

Are you aware?

Cervical cancer is 100% preventable disease caused by a sexually transmitted virus.

You must know

Every sexually active woman is prone for cervical cancer. (you, me and all women)!

What should you do to prevent cervical cancer?

Please get yourself checked. One test with negative result brings down your chance of cervical cancer by 30%!

Three checkups with negative result---- No cervical cancer!!!
